	Examiner José A. Fortuna	Art Unit 1731	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-2, 5, 7-23 are rejected under 35 USC §102/(b)/103(a). This rejection is set forth in the prior Office action mailed on April 24, 2006.

Response to Arguments

3. Applicant's arguments filed on August 24, 2006 with regard to the rejection over KR 2001056213 have been fully considered but they are not persuasive.

Applicants argue that the Boron compound is not added if a starch is used, but only when PVOH is used and shows a paragraph of the KR reference in which the borax and the starch can only be used in the alternative, i.e., either borax or starch or Glycerin could be used to cure the PVOH. The arguments are not convincing for the following reasons:

- The abstract clearly shows that the surface is treated either with PVOH or Starch and that the surface is treated with an aqueous boron solution.
- Applicants have not provided a complete certified copy of the KR reference. The examiner is relying on the abstract of the reference, and if applicants need to refer

Art Unit: 1731

to the body of the reference, then a certified translation Must be submitted in order to give proper weight to the arguments.

It is important to note that as claimed the phrase “near the surface” renders the claims indefinite, since “near” is a relative term that has not been defined by the specification, i.e., since papers are very thin anything is near its surface, so it is recommended to change the phrase.

Also the following informalities in the specification should be corrected:

- Apaper@ on page 3, fourth line of the detailed description of the invention section.
- Ainternal sizing@ on the fifth line of page 6.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

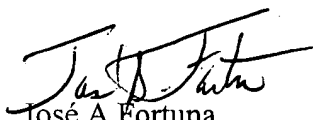

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
